

Fertility and housing: historical comparison and continuation

Sources: Census CPS Historical Table 2; ACS, 42 metros; saved model path. CPS 2022/2024 counts are capped at five. Completed fertility uses ages 40-44 throughout; CPS 2024 is the nearest survey to the model's 2023 observation. Model stock/housing series start in 2019. Continuation holds the last fertility preference fixed. No property-tax rebate; terminal-horizon sensitivity remains unresolved.
